DETAILED ACTION

Response to Amendment

The amendment filed on 3/30/2005 has been received and acknowledged to be found persuasive in view of the prior art of record.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mikio Ishimara on 5/26/2005.

Claim 32 last line, change "emitter" to -base-.

This corrects a typographical error.

Allowable Subject Matter

Claims 1-32 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does suggest a bipolar transistor teaching (Chantre) forming an intrinsic collector and an extrinsic base with overlap to said collector, forming an emitter adjacent to an intrinsic base, but the prior art fails to

Art Unit: 2891

describe or suggest *inter alia* the invention forming a recess under the extrinsic base stack adjacent one side of the intrinsic collector structure, as claimed.

The claims, therefore define over the prior art. Any comments considered necessary by applicant must be submitted no later than the payments of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
